DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "53" has been used to designate both **special block** (Fig. 12) and **free space** (Fig. 12). Correction is required.
2. The drawings are objected to because: "**Black**" in figures 1-12 should be changed to --**Block** --. Correction is required.

The applications having been allowed, formal drawings are required in response to this Office action.

Allowable Subject Matter

3. Claims 1-3 are allowed over the art of record.
4. The following is an examiner's statement of reasons for allowance: There is no suggestion or teaching in the art of record to provide a method of writing data to a large block of a flash memory cell comprising: picking a block from the back up blocks to serve as a special block for writing the remaining data thereof, wherein if the next set of data is not the continuation of the changed data, the stored data in the special block is read and the remaining free space is filled up with the changed data in the original block, and the data is written to the buffer. Then, the special block is erased to serve as a back up block for further writing the

unchanged data below the changed data in the original block page by page in an orderly manner according the page number until completely filling up the page, then the original block is erased to serve as a back up block and the original block is replaced by the buffer, in combination with the remaining claimed limitation. Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-3.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sugita (US. 6,754,115) discloses a flash memory device with back up memory block.

Kikuchi (US. 6,058,047) discloses a memory device having back up block.
